GOVERNANCE MANAGEMENT

Governance Management encourages efficient use of public resources and accountability for the stewardship over those resources. One of the key components of governance management is to align the interests of individuals, the organization, and society. Governance management encompasses setting goals and objectives, determining ethical standards, establishing the intended culture, ensuring compliance, and designing and implementing the governance framework.
Pursuit of this solution is transformative! It has the potential to enhance and elevate the quality of delivery of public services, consequently elevating the experience and benefit to the end-users, the citizen constituents, themselves.
